

## Austruct Personnel Profile

### Shane Dalton - Project Manager

Shane has some 25 years experience in the Building industry in both hands-on and managerial roles. With a broad range of experience and client types in three different countries, these projects range from high-end residential housing, large-scale unit developments, hospitals, hotels, clubs and accommodation facilities in the mining sector. More recently, oversaw the completion of the ten million dollar refurbishment of the iconic Regatta Hotel.

Shane was the project manager on the construction of the Village on Blain, Blackwater accommodation facility and restaurant. This was a 500 room development from the ground-up including all civil works through to landscaping and finishes. Within this project was the construction and overseeing of quality control of the portable accommodation blocks. These modules were constructed in the Brisbane factory and dispatched via road transport to site.

Other modular projects Shane has worked on was the concept and planning of the Lake Cathie Retirement Village in Port Macquarie. This project involved modular construction of 2 and 3 bedroom homes fully landscaped and furnished.

Austruct believes we have the staff and management in place to fulfil your construction needs in all facets from new-builds, modular housing, and refurbishments and more.

If you wish to discuss these or future projects please contact Shane on the below.
